Survey Overview

- Survey Monkey
- 10 Questions
  - Still accepting additional surveys!
- 27 Respondents
Survey Goal

- What is a CDISC User Network?

CDISC User Networks enable face-to-face interactions in specific regions [...]. They are self-formed groups that encourage the adoption and understanding of the usefulness and value of CDISC standards.

(http://www.cdisc.org/site/faqs.php)
Survey Goal

- Now that CDISC Standards have become increasingly understood, accepted, and adopted, what should the purpose and direction of the DCDISC group be?
  - Who are our members and what are their needs?
  - Where should we go from here?
Overview of Questions

- **Respondents**
  - What type of organization do you work for?
  - What is your function within your organization?

- **Use**
  - Which of the CDISC Standards are your organization using or currently implementing?
  - How do you keep informed of CDISC developments?
  - Benefits that the DCDISC group can provide
  - Which work of these other standards groups are you familiar with?

- **Involvement**
  - Is your organization a CDISC member?
  - Involvement/interest in involvement with CDSIC and DCDISC

- **Other**
  - Contact information
  - General comments

Which work of these other standards groups are you familiar with?

- HL7 - Actively Working With: 1
- HL7 - Familiar With: 12
- PhUSE - Working With: 2
- PhUSE - Familiar With: 11
- HHS SDCI - Working With: 1
- HHS SDCI - Familiar With: 7
- C-Path - Working With: 1
- C-Path - Familiar With: 6
Is your organization a CDISC member?

- Yes - with access: 56%
- Yes - w/o access: 11%
- No: 26%
- I don't know: 7%
Involvement with CDISC and DCDISC

- I plan to attend at least one DCDISC meeting in 2013: 89%
- DCDISC provides useful information to me and/or my Organization: 85%
- I would recommend the DCDISC meetings to my colleagues: 78%
- The DCDISC meetings should include work done by other Standards Organizations: 33%
- The DCDISC meetings should provide more opportunity for feedback from the different types of Organizations: 30%
- I want to know more about what is required as a member of the DCDISC Steering Committee before I volunteer: 11%
- I'm an active member of an ADaM working group: 11%
- I'm an active member of an SDTM working group: 11%
- My organization is interested in hosting a DCDISC meeting: 7%
- I'm an active member of another CDISC working group: 7%
- I'm interested in becoming a member of the DCDISC Steering Committee: 0%
Highlights

1. Majority of our members are programmers, followed by management
2. SDTM is the most commonly implemented standard, followed by ADaM and Define.xml
3. DCDISC value to members:
   - Provides guidance on the implementation of CDISC standards
   - Provides updates on CDISC standards in general
   - Provides insight into how other organizations are implementing CDISC standards
   - Provides insight on other organizations' experiences on CDISC standards based submissions
   - Networking with colleagues
   - Learn about available tools to help with the implementation of CDISC standards
4. Work of other standards organizations is of interest

Results based on 27 respondents.
Ideas for Next Steps

- Add a 10 minute update on CDISC standards in general and have attendees contribute
- Encourage more DCDISC members to get involved
  - Demystifying involvement in CDISC working groups
- Create more dynamic networking opportunities
- Increase presentations focused towards data managers, medical writers, and other functional areas
- Ensure the level of detail in presentations matches member interest and needs
- Presentations on tools
- Other suggestions from you…
